

Staying safe online

Safer
Internet
Day 2016

Tuesday
9 February

Play your part for
a better internet

www.saferinternetday.org.uk

How e-safe are you?

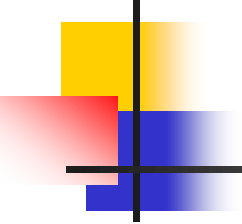

We

Gather...

Sign of the Cross

Morning Offering

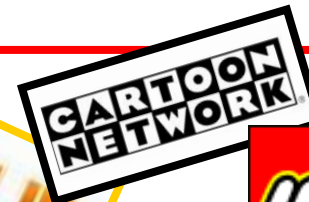

Isn't the internet amazing? It allows you to see more, learn more, communicate easily with others and have lots of fun.

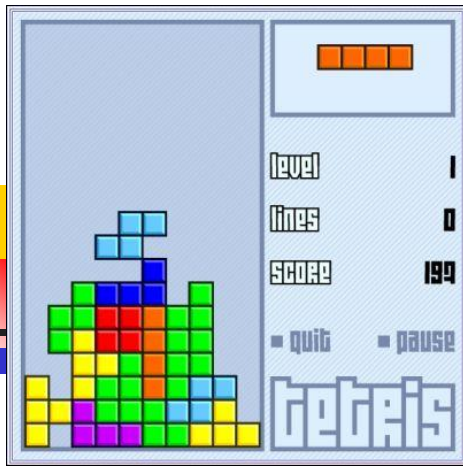

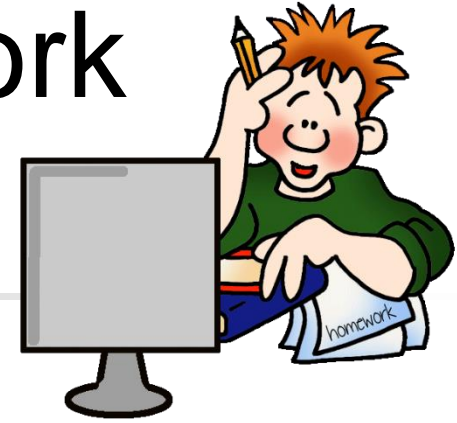

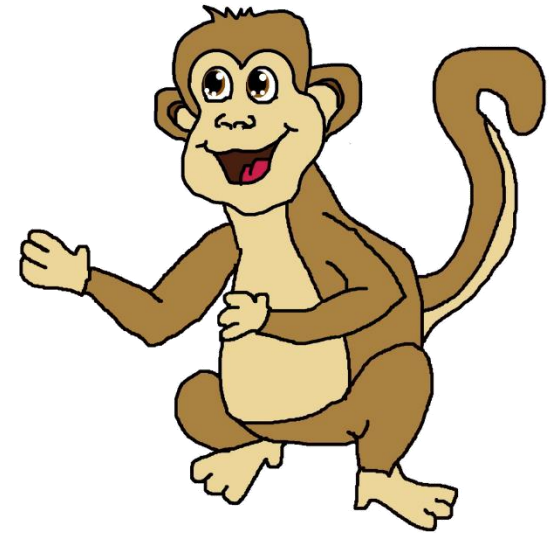

The Internet is great because...

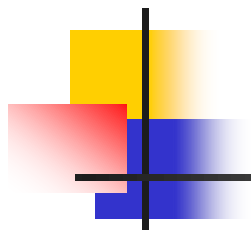

Homework

Games

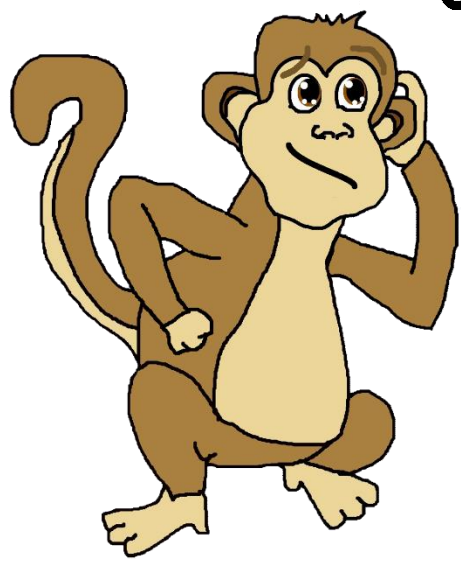

Communicate

What does
it mean?

Surf Safe!

Be safe
online!

To help you enjoy it safely, we'd like you to follow the

'Click Clever, Click Safe Code'.

It's just three simple things we want you to remember, to help keep you safe when you go to your favourite websites each day.

RULE NUMBER..

Do you use social
networking sites?

Twitter,
Instagram,
MSN,
Facebook ?

Do you have a Smart Phone?

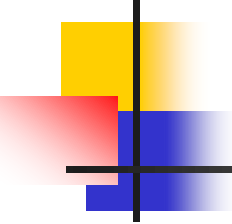

Mobile phones are making it much easier to communicate in lots of different ways.

Social media and messaging is a great way of communicating with your friends.....

But DON'T get caught up in nasty arguments.

Drama Club – Scenario 1

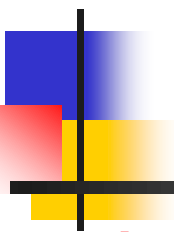

It's so easy to say something online that you wouldn't say to someone's face because you know it would hurt their feelings.

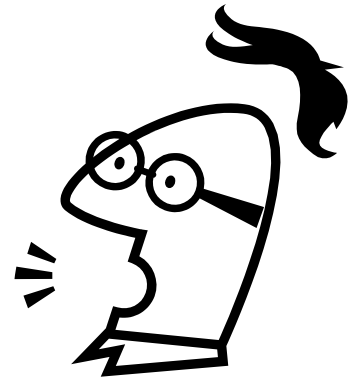

Don't hide behind your mobile phone or computer – words on a screen can be as hurtful as the words that come from your mouth.

DON'T GIVE PEOPLE YOUR PASSWORD!

Change your password regularly,
just in case somebody guesses it
and begins to access your account.

Drama Club – Scenario 2

Always use a nick-name instead
of your real name.

Use an avatar instead of your
real picture.

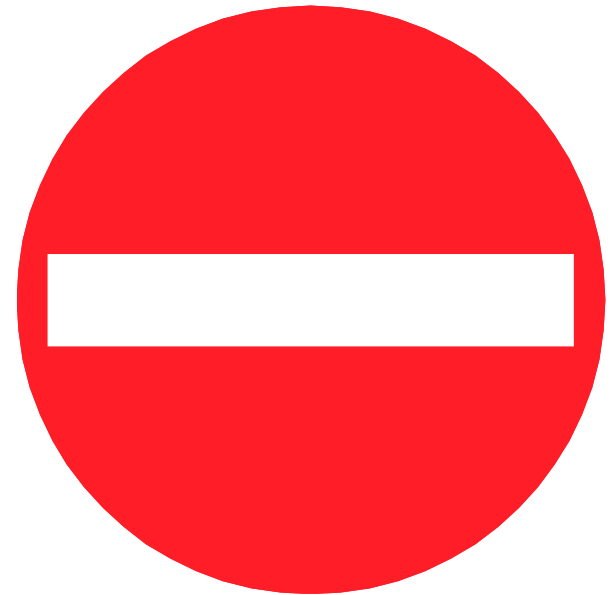

Rule number....

2

BLOCK IT

Block people who send nasty messages and don't open unknown links and attachments.

Always delete emails from people you don't know, and don't open attachments from people you don't know. They might be nasty or have a virus that can stop your computer working.

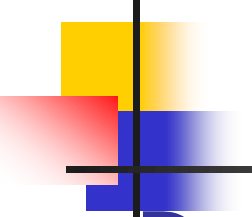

If someone is mean or sends nasty messages online, block them.

Cyber bullying is very real and very upsetting... it is no different to usual bullying.

Remember that people online may not be who they say they are. Online friends are still strangers even if you have been talking to them for a long time.

Don't share personal information online including your full name, photos, addresses, school information, telephone numbers and places you like to spend time. Make sure you have set privacy settings to restrict access to personal information.

That rule applies to your mobile phone, DS, X-box live too.

Anywhere you have access to the internet, whilst unsupervised, can have these problems.

Drama Club – Scenario 3

Rule number....

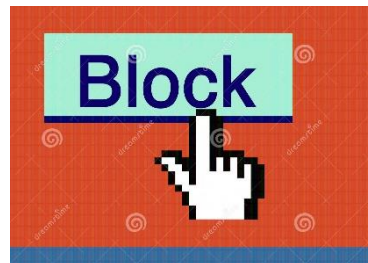

Flag It or Report It

Flag up (share) with someone you trust if anything upsets you or if someone asks to meet you offline.

Or report it to the operating company.

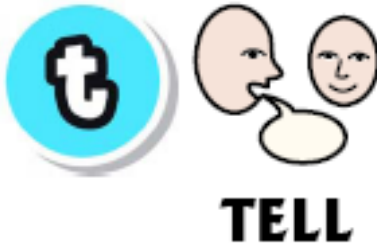

If a friend you have made online asks to meet you in the offline world, talk to your parents or a trusted adult about it.

You should never meet up with someone you have met online without an adult going with you because it is dangerous.

Follow the SMART rules

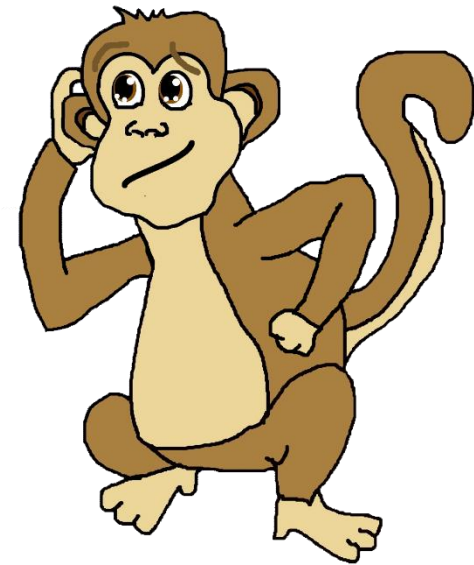

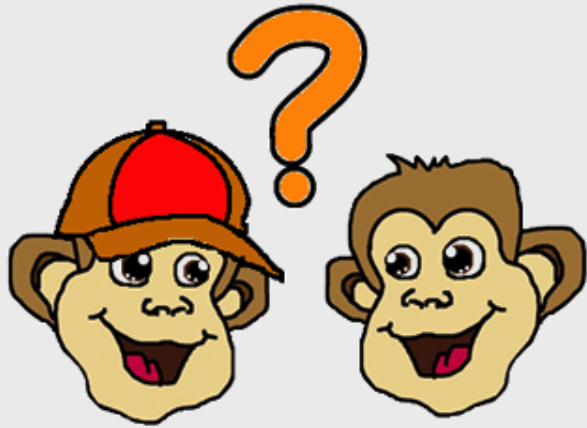

Tell

Tell a parent, carer or trusted adult if someone, or something makes you feel worried or uncomfortable online. Also, tell someone if a friend of yours needs help online too.

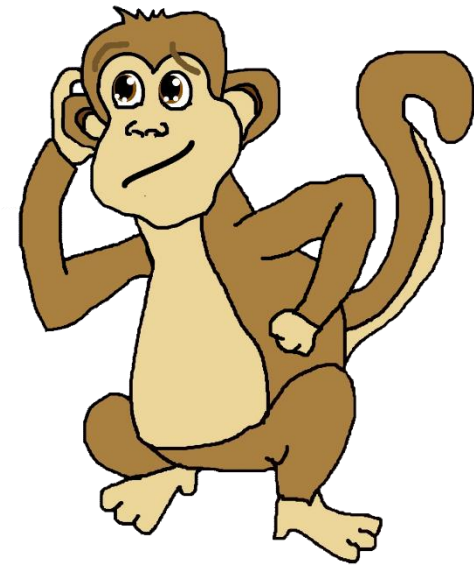

Mitch wants to play
a new game on
his Mum's iPad

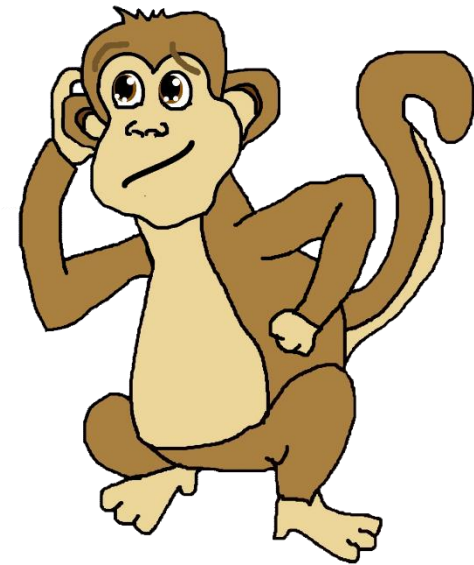

Mitch's friend asks him
what his password is

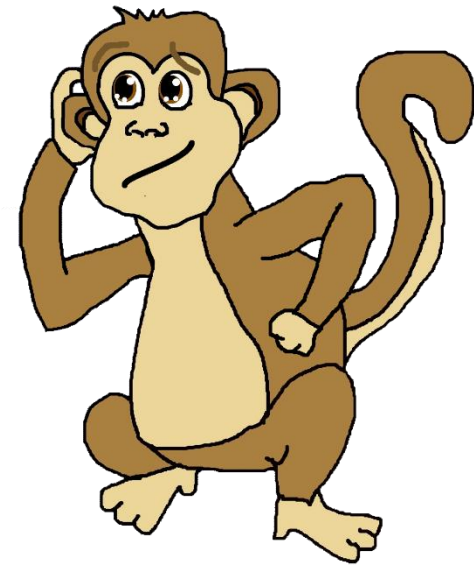

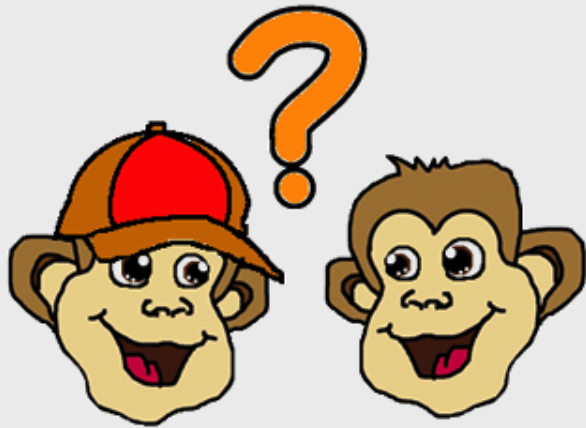

Mitch's game asks
him to enter his name

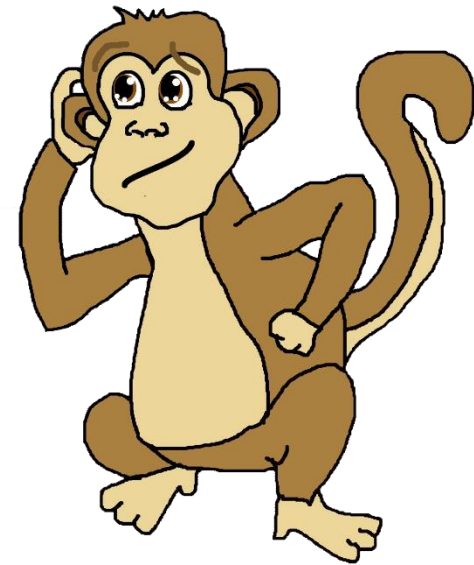

Someone Mitch doesn't know
emails him, asking which
school he goes to

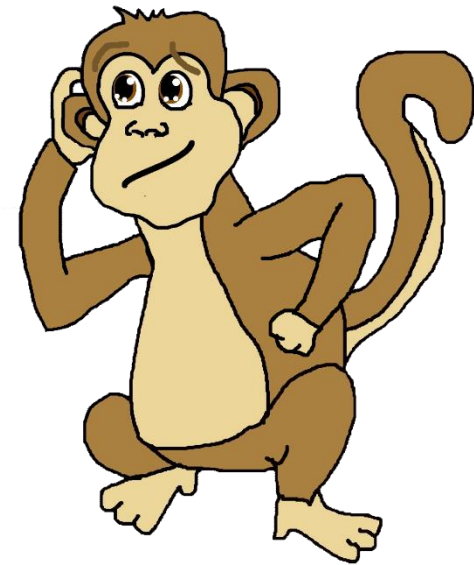

Mitch's friend from school
emails him asking which
football team he supports

homework

Mitch's teacher asks him to
use the internet to find out
about farms for homework

You are playing your favourite game online and one of your friends starts to be unkind to you. They use bad language during the game and begin to call you names in the messages you send to each other afterwards. You are really upset and don't go on the website again, even though you don't want to stop playing because you're doing really well and getting high scores!

What should you do?

Who can you tell?

What can you do on a website

if this happens?

You have been playing your favourite online game for 6 months and have met a new player. You often arrange to be online at the same time and regularly message each other about your scores. You've become good friends.

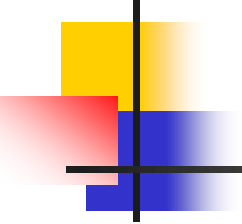

Your online buddy says they live quite close and would like to meet to play a new game that they have. You've not got it yet and it's a brilliant one that you'd love to try out!

What do you say to your buddy?

Should you meet them to play the game?

Give reasons...

If someone you know is being nasty to someone online, speak to a parent or a trusted adult about it.

We Respond

Let us pray...

We Respond

Being safe is about being smart,
making the right choices and
knowing what to do when you
just don't feel happy about
something.

And remember... there are lots of other ways to have fun!
