LO: TO UNDERSTAND THAT PEOPLE CAN BE GOD'S MESSENGERS.

Last week, we looked closely at how important angels were in God's plan.

They were God's messenger, who communicated His message to people on Earth.

As God's messengers, the angels gave people instructions, comforted them, warned them or brought them The Good News.

People that we encounter in the Christmas story followed angels' instructions and fulfilled Lord's will.

God's messengers on Earth

But do you have to be an angel to share the Good News or tell people about how wonderful God is?

No!

Throughout the history, people, who followed God's commandments and showed courage, kindness and love became God's messengers.

We call them SAINTS.

Saints often help and care for others, their behaviour and actions are always intentional and help spread God's love.

They always put God in the centre of their lives.

Saints stand by their faith, even in the face of danger and often sacrifice their lives serving the Lord.

Can you recognise any of those Saints?

Today's work:
Please research your
chosen Saint and prepare
a comic strip about
his/her life.

Where/when were they born?

What did they do?

How did they help people to
follow God better?
