THE
DIARY OF A
**Monster
Catcher**

The Flounder X16

The Control Room

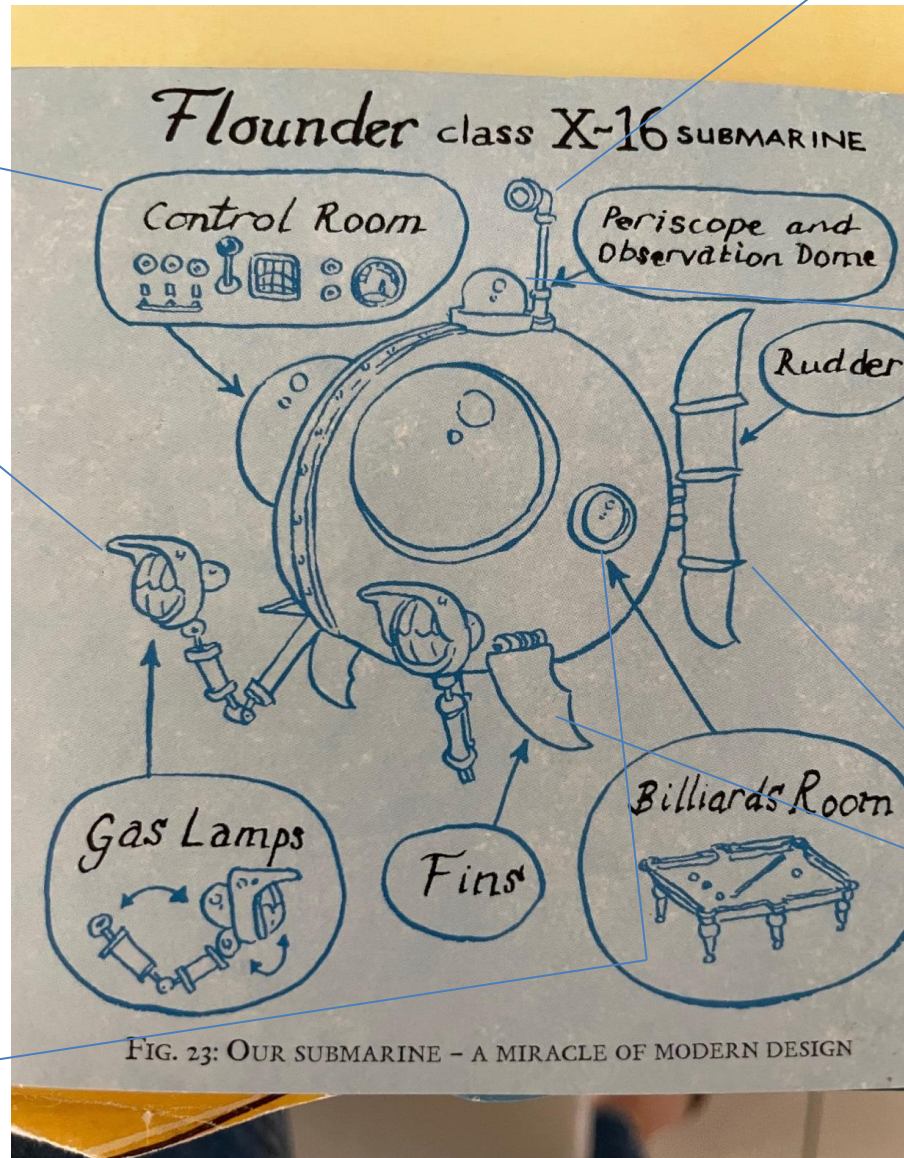

The heart of the submarine. All the controls are here to steer and navigate.

Gas Lamps

These help us see under water. They are on folding arms to help us see into tight spaces.

Billiards Room

A games room for our entertainment. We quite enjoy a game of pool

Periscope

We can pop the periscope up to spy on the world above the ocean

Observation Dome

The team can look at everything going on under the water.

Rudder and Fins

We have a large rudder and small fins to help the submarine change direction quickly.

Flounder X16 Report

The Flounder X16 is the latest and greatest invention from Rynott and Wood. They have really exceeded all expectations with this sinking miracle. How lucky we are to be able to explore the depths of the ocean! I Think ! Lets just hope this one doesn't get destroyed by another monster. Here are some of my favourite features.

The Control Room

What an important room this is! This room is equipped with a great selection of buttons, dials, switches and leavers. I don't know what all of them do but its fun playing. Lets just hope there isn't an ejector switch!

The periscope

What fun we have had with the periscope! This great device allows us to spy on the world above the ocean. We were having so much fun with this until it was attacked by an angry bunch of seagulls.

The Observation Dome

How lucky we are to have our own observation dome to view the ocean! It is truly better than television. Grimshaw is loving every minute of it, even the fish are getting sick of him ('Cheese')

Thanks Rynott and Wood for the most amazing submarine ever. We really are lucky explorers to have such amazing technology.

Activity: Flounder X16 Report

You need to write your report for the Flounder X16.

Box 1 - You will need to do an introduction paragraph first .

Box 2 and 3 - Choose two of your favourite features of the submarine to write about. Remember to use sub headings and underline them.

Box 4 - To finish write a short concluding paragraph.

You can also draw a diagram of the X16 if you like.

Try to include some exclamation sentences in your writing.
