Opportunities

Making a
Difference

Through the St Osburg's Promise every child will have the opportunity to

We are incredibly proud of our school community at St Osburg's Catholic Primary. In addition to our curriculum, we understand the value of enrichment opportunities and extra curricular learning has on our children's education . Our 'Promise' has been especially designed to compliment our existing curriculum, enriching the life experiences of our pupils.

We want all of our pupils to feel safe, happy and show a willingness to learn. They will feel empowered try new things, continually try their best so they grow into confident and successful learners, be able to positively contribute to society and become responsible citizens.

A Community of Love, Learning and Growing in the Image of Christ
